Microcomputer-Automatic Incubator Cum Hatcher

AI -352 AS

Electronic egg turning control.

Power voltage 240VAC, 50HZ easy to use

Full automatically temperature controlling , Full automatically humidity controlling.

Full automatically eggs turning , Full automatically alarming, Full automatically cooling and ventilator.

Features

1. Automatic air cooling system and automatic ventilator.
2. A small window in the door, you can see the whole hatching process through the it.
3. High temperature override which disables heater element if temperature spikes.
4. Egg turning automatically per 1.5 hours, Complete 45 degree turning of eggs in both directions.

Technical Specification

Model : AI-352AS

Microcomputer-Automatic Incubator Cum Hatcher

Total capacity for eggs: 352 for eggs of chickens, black-bone chickens, pigeons, earth chickens, mountain chickens, partridges;

252 for eggs of mandarin ducks, turkeys, peacocks, ducks;

125 for eggs of middle geese, geese, wide geese;

884 for quail, each kind of bird's egg

Working voltage: 220V

Electric power: 200 W

Precision of temperature measurement $\leq \pm 0.1^{\circ}\text{C}$

Size of the equipment: 700 x 530 x 1100 (mm)

Model :AI-520AS

Microcomputer-Automatic Incubator Cum Hatcher

Total capacity for eggs: 520 for eggs of chickens, black-bone chickens, pigeons, earth chickens, mountain chickens, partridges;

378 for eggs of mandarin ducks, turkeys, peacocks, ducks;

192 for eggs of middle geese, geese, wide geese;

1326 for quail, each kind of bird's egg

Working voltage: 220V

Electric power: 200W

Precision of temperature measurement $\leq \pm 0.1^{\circ}\text{C}$

Size of the equipment: 700 x 530 x 1300 (mm)

Model : AI-1056 AS

Microcomputer-Automatic Incubator Cum Hatcher

Total capacity for eggs: 1056 for eggs of chickens, black-bone chickens, pigeons, earth chickens, mountain chickens, partridges; for layer, meat chicken, wild duck;

700 for eggs of mandarin ducks, turkeys, peacocks, ducks;

450 for eggs of middle geese, geese, wide geese;

2652 for quail, each kind of bird's egg

Working voltage: 220V

Electric power: 300 W

Precision of temperature measurement $\leq \pm 0.1^{\circ}\text{C}$

Size of the equipment: 0.92 x 0.64 x 1.35 (meter)

AI- 520 AS

Model : AI- 1056 AS

Model : AI-1584AS

New type egg incubator, chicken egg incubator, automatic hatchery machine.

setter: 1584 eggs

hatcher: 200 eggs (can upgrade to 1784eggs)

Incubator including:

- 1.Egg try 18 pcs
- 2.Hatching basket 2 pcs
- 3.Egg candle
- 4.Can upgrade 18 pcs blue hatching basket
- 5.1584 chicken eggs,1134 duck egg,576 goose eggs,3978 quail eggs

Feature of incubator

Working voltage: 240V

Electric power: 300 W

Precision of temperature measurement $\leq \pm 0.1^{\circ}\text{C}$

- 1.Micro-computer LCD controller
- 2.Automatic egg turning system
- 3.automatic alarm system.
- 4.automatic cooling and ventilation system.
- 5.automatic temperature and humidity control system.
- 6.Auto mode for ; chicken,duck,goose,pigeon,pheasant.
- 7.Cooling mode
- 8.UV light

Dimension :1310mm x670mmx1700mm

Weight : (100kg)

AI-1584AS

Model : AI- 1584 AS
